

It works very well, feels safe, well organized	Should be cheaper
It's free of charge and centrally localized	It's not very aesthetic, it's very dark and gray
It's very secure so you know your bike is going to be safe :)	Some of the garages close during the night- which means that getting your bike after going out is not happening. Would be nice if it was open 24 hours.
Safety, open all hours, enough space.	The ways that lead to the exit could have been routed in a better way since people do make a lot of shortcuts.
Infrastructure	Busyness
Lots of space	Sometimes you have to lift your bike high up
It is easy and fast to get in	More signs to get there
Het is gratis	Ik vergeet mijn fietskaartje vaak
Safe, convient	I'd like to have more spaces, spaces on the floor (i have a heavy bike, i m not strong can not take a place on the second level where you have to lift your bike)
